"Super Bugs" - how "Super" are they and what should/could our response be? We are truly fortunate to have Dr. Valerie Jaeger, the Chief Medical Officer of Health for the Niagara Region, take time out of her busy day to come and talk to us about this important topic in today's ever more integrated world. She will discuss the challenges faced by clinicians as they try to manage infectious bacterial organisms against which the majority, if not all, of our current antibiotics (in which so much hope has been placed) are ineffective.

Dr. Jaeger is a proven community leader and dedicated physician, who is known for her thoughtful, warm, and solid leadership. She leads a staff of more than 700 public health professionals in Niagara with a budget of approximately \$75 million.

Lunch will include Mixed Salad; Mushroom Ravioli or Chicken Parmigiana; Strawberry Cheesecake; Coffee/Tea.
